

Krishna Kowshik Mallajosyula

Full Stack Developer | Generative AI Builder | Content Creator
kkowshik03@gmail.com | +91-8897102144

SKILLS

Languages & Frameworks

C/C++, Python, HTML, CSS,
JavaScript, TypeScript*, ReactJS, Flask*

AI / Gen AI

Generative AI, OpenCV, YOLOv8,
LLM Integration, AI App Development

Databases & Cloud

MariaDB, MongoDB*, RESTful APIs,
Vercel, Netlify, CORS

Tools & Platforms

Git, VS Code, Postman, Cursor,
Power BI*, Linux, Windows

Soft Skills

Public Speaking, Content Creation,
Team Collaboration, Mentoring

* foundational knowledge

EDUCATION

B.Tech, CSE (Data Science)

MVGR College of Engineering
Vizianagaram | 2024–2028
CGPA: 8.91/10.0*

Intermediate (MPC)

Sri Chaitanya Jr. College
Srikakulam | 2022–2024
90.5%

Secondary (CISCE)

St. Paul's High School
Srikakulam | 2022
77%

Coursework: DSA, ML, Data Science,
OS, DBMS

RESPONSIBILITY

Aadhrita 2026

Outreach & PR Lead, MVGR

Campus Ambassador

Between Breaks

Core Member

GeeksForGeeks & HackerRank

Event Ambassador

Innoyudh 2025, NSRIT

PROFESSIONAL SUMMARY

Full Stack Developer and Generative AI Builder with hands-on experience in production-grade web applications, AI-powered tools, and computer vision systems. Proficient in Python, ReactJS, Flask, and Gen AI frameworks. Recognized through multiple national-level hackathons and actively contributing through campus leadership and content creation.

EXPERIENCE

AI and ML Intern

Paid Project Internship

JNTU-HYD

Hyderabad, India

- Designed and optimized ML models for infrastructure anomaly detection in drone imagery.
- Applied computer vision & geospatial tech for structural health monitoring of bridges.
- Worked on DST-sponsored research with end-to-end ML model development workflows.

Jr. Full Stack Dev Intern

Full Stack Development

Clientura

Vizianagaram, India

- Built full-stack web applications across frontend UI and backend API layers.
- Resolved performance bottlenecks; gained exposure to REST APIs and Git workflows.

Freelance Full Stack Developer

Web Development

Aqua Bites & EndureUp

Freelancing

- Delivered full e-commerce website (Aqua Bites) end-to-end: design to deployment.
- Completed project-based work for EndureUp on schedule per client requirements.

PROJECTS

Safeguard AI

Python, Flask, React, OpenCV, YOLOv8, PostgreSQL

AI-Powered Workforce Safety & Management System

Full-Stack & CV

- Built real-time PPE compliance monitoring with YOLOv8 for automated safety violation detection.
- Role-based platform (Super Admin → Worker) with zone management and AI kiosk check-in.

ATS Resume Analyzer

Python, Flask, Gen AI, REST API

Flask-based ATS Analyzer with Downloadable Report

resumerrs.vercel.app

- Flask backend for PDF parsing, skill extraction, and ATS score calculation.
- Deployed on Vercel with secure CORS and environment variable configuration.

ColabX

ReactJS, Full Stack, Modern Web

Collaborative Web Platform

colebx.vercel.app

- Designed and deployed a ReactJS-based collaborative platform hosted on Vercel.

ACHIEVEMENTS

Content Creator & Educator

YouTube — @koushiktales

2.5K+ Subscribers

- Grew channel to 2,500+ subscribers with tech, career, and learning-focused content.
- Produced videos leveraging audience analytics and digital storytelling techniques.

Hackathons:

Smart India Hackathon 2025 — Internal Selection | Innoyudh (NSRIT) — 16th Place

HackWithVizag 3.0 | Vibe Coding 2026 (ANITS) | LNIT SUMMIT Hacktriad 2.0 (Lendi)
